

Minerals of Canada poster

Celebrate Canada's minerals wealth with a new colourful and informative **ilingual** poster from the *Mineralogical Association of Canada*.

The *Minerals of Canada* poster has been designed for teachers and students exploring curricula related to rocks and minerals. The poster will spark interest and questions about minerals and the Earth. It will help introduce minerals, their characteristics and occurrences in the Provinces and Territories.

- Art quality poster 61 cm (24 in) x 81 cm (32 in)
- Folded size 21.5 cm (8 ½ in) x 28 cm (11 in)
- Stunning colour photography
- Great for use in schools and libraries

Teachers

Get a free folded copy by sending a request by mail, fax or email.

With the *Minerals of Canada* poster, you can explain several properties of minerals: **luster, cleavage, color, crystal form, iridescence.**

Information on the minerals, samples photographed, mineral properties and several class activities available on

www.mineralogicalassociation.ca/poster
