

### **Structural Geology, Igneous Petrology or related positions**

The Faculty of Science at the University of Ottawa invites applications for a tenure-track position at the Assistant Professor level in one of two disciplines: Structural Geology / Tectonics, particularly candidates who combine field studies and quantitative analysis in their research; or Igneous Petrology, particularly those candidates who base their research on field studies combined with computational modeling of physical/chemical processes. The preferred start date of the position is **3 January 2011**. A PhD is required at the time of appointment and post-doctoral experience is desirable. The potential for collaborations with other earth scientists exists within the Ottawa-Carleton Geoscience Centre, which incorporates the expertise of geoscientists at University of Ottawa, Carleton University and the Geological Survey of Canada. The department was recently awarded CFI funding for an accelerator mass spectrometer together with new petrochemical facilities including an electron microprobe, SEM, LA-ICPMS, and noble gas mass spectrometer, which the successful candidate would be encouraged to use. The successful applicant will have a strong commitment to excellence in research and teaching; he/she will be expected to supervise graduate students, and teach undergraduate and graduate courses in his or her field of research. An additional requirement of the position is the ability to teach in both French and English (the two official languages of the University). Salary will be commensurate with experience as per the University of Ottawa Collective Agreement.

Interested candidates should submit an application consisting of the following:

- A letter of application formally expressing interest in the position, summarizing research objectives and outlining teaching goals/philosophy
- An up-to-date curriculum vitae
- Copies of three recent peer-reviewed publications
- Three letters to be sent directly and confidentially to the address below

The application package should be sent by post or email to:

Search Committee Chair  
Department of Earth Sciences  
University of Ottawa  
140 Louis-Pasteur  
Ottawa, ON K1N 6N5  
Canada  
david.schneider@uottawa.ca  
Fax: 613.562.5192

Deadline for application is **3 September 2010**; review of the applications will continue until the position is filled.

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority. Equity is a University of Ottawa policy; women, aboriginal peoples, members of visible minorities and persons with disabilities are encouraged to apply.

The University of Ottawa is proud of its 160-year tradition of bilingualism. Through its Official Languages and Bilingualism Institute, the University provides training to staff members and to their spouses in their second official language. At the time of tenure, professors are expected to have the ability to function in a bilingual setting.
