

Appendix 3: Supplemental Figure
Hunt et al. Sintering Drives Textural Evolution Of Chromitite Seams

Supplemental Figure: Hunt et al, Sintering Drives Textural Evolution of Chromite Seams

Supplemental figure 1: Plot of Fe^{3+} versus Ti^{4+} APFU calculated on the basis of 24 oxygens for the Bushveld, Stillwater, Muskox and Rum chromitite crystals. Note the variation is greater for the Rum dataset than the others.
